

THE WRANGELL SENTINEL

VOL. XVI. NO. 41

WRANGELL, ALASKA, THURSDAY, OCTOBER 4, 1917

PRICE TEN CENTS

ISKOOT TO COME INTO ITS OWN

George A. Clothier, Esq., district mining engineer for District No. 1, which embraces all of northwestern B. C., returned last week from a trip up the Iskut river on the Hazel B III. Owing to the snow Mr. Clothier was unable to go over the country to his entire satisfaction. When seen by the Sentinel reporter Mr. Clothier said:

"The country along the Iskut looks entirely satisfactory to me. I am coming back next May or June with a crew of six men and will then go over the country thoroughly and find what its mineralization is. The country looks similar to that of Portland canal where such good showings have recently been made.

"When I come back I am going to put in all the time I can spare on the Iskut and Stikine rivers. The talk we have heard so long about the Iskut not being a navigable stream is all a delusion. There is absolutely no question that ore could be shipped down the Iskut with little or no difficulty."

Thomas-Campbell

Paddy Thomas of Wrangell and Helen Campbell of Haines were married Monday evening in the Episcopal church by Rev. H. P. Corser.

Following the wedding there was a supper at the Boston cafe.

In honor of the event there was a dance at the Rink, the music being furnished by the Wrangell band. That the dance was an enjoyable one is evidenced by the fact that it lasted until 5 a.m.

Presbyterian Church.

Presbyterian church, October 6, at 7:30 P.M.

The subject will be, "Human responsibility." Text John 18:37. "To this end have I been born, and for this cause came I into the world, that I should bear witness unto the truth."

The study for Friday evening will be the church life and kingdom conditions. Rev., chapters 2 and 3, and Matt. 13. Come.

Home from the States

(Petersburg Report.)

Mrs. Gordon McDonald and little son, and Mr. and Mrs. James Jarvis arrived home yesterday on the Al-Ki from a six weeks' visit at South Bend, Wash. They were accompanied north by a brother of Mr. Jarvis. Others arriving on the Al-Ki included Miss T. Thompson, and Miss S. Dahl.

Mrs. George M. Ridges, 845 South Hill street, Los Angeles, Cal., writes to the Sentinel: "About eighteen months ago my brother sailed for Alaska from San Francisco, and we have not heard from him since. My mother is sick and asking for him. His name is William D. Bocker; age, 35 years; single. The two other brothers are in the draft. Any information which may lead to finding the young man will be thankfully received by the sister, at the address given above, or the mother, Mrs. Bocker, at 261 West Second North street, Salt Lake City, Utah."

Homer Worden is dangerously ill in Seattle with appendicitis.

There is no cable news in the Sentinel this week owing to the fact that the cable has been out of commission between Wrangell and Seattle since September 26.

OF LOCAL INTEREST

The extreme high tide this week did no damage in Wrangell owing to the absence of wind. At Ketchikan the high tide was backed by a stiff southeaster and flooded the engine room of the Ketchikan Power company on the water front, putting out two of the fires in the engine room, near the water and floated sawdust and timber about in the yard before receding. Work was stopped at the mill for about two hours until the fires could be rebuilt and steam gotten up to start the machinery going again.

The members of the exemption board were sworn in Tuesday afternoon by Judge Wm. G. Thomas. Tuesday evening the board met and gave serial numbers to all registrants in the Wrangell district outside the incorporated town of Wrangell. The board has its office in the town hall.

J. L. McPherson, manager of the Alaska Bureau of the Seattle Chamber of Commerce, was a pleasant caller at the Sentinel office yesterday afternoon. Mr. McPherson is of the opinion that the attention paid the herring in this region the past season is the beginning of a great industry in Alaska that will be permanent and become enormous.

At the meeting of the Wrangell Fire Department Monday evening an iron cross was presented to Charlie Oleson for his daring bravery in capturing Oscar Weston who was shooting up the town on Saturday night. The presentation speech was made by Capt. J. G. Grant. The iron cross was of course a burlesque on the Kaiser. Mr. Oleson, although of alien birth, is heartily in sympathy with the cause of the Allies, and in accepting the iron cross he carried out the jest by being most profuse in his thanks.

Claude Blackington who has been in the Juneau General hospital under the care of Dr. Dawes is convalescing, and will soon be out again. Three months ago Mr. Blackington got ptomaine poisoning aboard his boat near Port Alexander. He was taken to Juneau in a critical condition not expected to live.

Dr. L. P. Dawes, city health officer of Juneau, announces that LaGrippe is raging among the children of the capital city, caused by the sudden change in the weather and the cold rain. Many of the older people are also affected.

C. B. Hanthorne, superintendent for the Northwestern Fisheries at Santa Ana, accompanied by Mrs. Hanthorne, has gone to the States for the winter. They sailed on the Jefferson Monday. The most of the cannery crew went south on the same vessel.

Darby Choquette, skipper on one of the cannery tenders for the Northwestern Fisheries at Santa Ana during the past season, went south this week for a trip to the States.

Mrs. Martin George who has been visiting her daughter, Mrs. I. C. Bjorge, departed yesterday for her home in Juneau.

PRESIDENT APPEALS TO SCHOOL CHILDREN

To the School Children of the United States:

A PROCLAMATION.
The President of the United States is also President of the American Red Cross. It is from these offices joined in one that I write you a word of greeting at this time when so many of you are beginning the school year.

The American Red Cross has just prepared a Junior Membership with School Activities in which every pupil in the United States can find a chance to serve our country. The school is the natural center of your life. Through it you can best work in the great cause of freedom to which we have all pledged ourselves.

Our Junior Red Cross will bring to you opportunities of service to your community and to other communities all over the world and guide your service with high and religious ideals. It will teach you how to save in order that suffering children elsewhere may have the chance to live. It will teach you how to prepare some of the supplies which wounded soldiers and homeless families lack. It will send to you through the Red Cross Bulletins the thrilling stories of relief and rescue. And best of all, more perfectly than through any of your other school lessons, you will learn by doing those kind things under your teacher's direction to be future good citizens of this great country which we all love.

And I commend to all school teachers in the country the simple plan which the American Red Cross has worked out to provide for your cooperation, knowing as I do that school children will give their best service under the direct guidance and instruction of their teachers. Is not this perhaps the chance for which you have been looking to give your time and effort in some measure to meet our national needs?

(Signed) WOODROW WILSON, President.

DECLARED WAR ON WRANGELL

Oscar Weston Given Six Months for Wilfully Firing Into the Populated District of Wrangell

War was declared on Wrangell Saturday night by Oscar Weston, who, after mixing drinks too freely, became enraged over imaginary offenses.

Weston went aboard a gasboat tied to the slip of the Columbia & Northern dock and opened fire on the town with a 280 Ross high power rifle. Fortunately he aimed a little too high to do any harm, but the whistling of bullets overhead was not very welcome music. The officers, knowing that Weston was insane for the time being, and wishing to take him alive, permitted Charlie Olesen, who knew Weston pretty well, to undertake his arrest. Through a clever stratagem Olesen succeeded in getting aboard the boat and disarming the madman.

Monday morning Weston was arraigned before U. S. Commissioner Weber on a complaint sworn to by H. J. Wallace, charging him with firing into the populated section of Wrangell. At the trial Weston appeared sober and contrite, and freely plead guilty to the charge.

The Commissioner gave Weston the light sentence of six months.

Is your subscription paid up?

DR. SHURICK GOES TO WAR

Dr. S. C. Shurick leaves next week for San Francisco to enter the medical reserve corps. The doctor has been assured of being commissioned a first lieutenant.

From the correspondence the doctor has received he expects to be in France by the first of the year.

Dr. Shurick has resided in Alaska for fourteen years. The past ten years he has been a resident of Wrangell. He has been a public spirited, useful citizen, and he and Mrs. Shurick will be greatly missed from Wrangell.

Were it not that Dr. Shurick's departure is for the patriotic purpose of serving his country there would be a storm of protests against the Shurick family leaving us. But since the doctor is going to minister to our brave boys at the front we are glad to see him go and are proud of him.

RED CROSS NOTES

The Red Cross did not meet Tuesday evening on account of the meeting of the exemption board. The meeting will be held next Tuesday evening in the town hall at 8 o'clock.

Don't let Saturday afternoon slip by without visiting the sale of home cooked foods by the Red Cross at the town hall, beginning at 3 o'clock.

Red Cross chapters have been organized at Cordova and Seward.

George La Bounty, a former resident of Wrangell, who is in the employ of Albert Reinert at Skagway, was in Wrangell the first of the week. Mr. La Bounty had been making a business trip. When he got as far south as Kake he could not resist extending his trip to Wrangell in order to spend a few days with his old tillicums.

Carl Carlson sailed for Seattle Friday night on the Princess Alice. He will enter the University of Washington and enlist for military training in the United States Officers' Reserve corps.

Raymond Lee, who has been employed as an engineer on one of the Columbia & Northern boats, left on the Jefferson Monday afternoon for Powers, Oregon.

Governor B. B. Comer of Alabama who has been big game hunting in B. C., took passage south on the Princess Alice Friday night.

Master Peter McCormack has recovered from his recent operation in Seattle and is getting in fighting condition. Mrs. McCormack and Peter will remain outside the greater portion of the winter.

Miss Nellie May Taylor, who taught the Native school at Kake the past two years, is teaching the Native school at Killisnoo this year. Miss Taylor was formerly principal of the Native school at Wrangell.

Ladies' visiting cards neatly printed at the Wrangell Sentinel.

EXEMPTION FROM ASSESSMENT WORK

[Aerogram]
Editor Sentinel,
Wrangell, Alaska.

Congress today approved passage of bill which exempts every owner of lode or placer claims in Alaska and elsewhere from assessment work during years 1917 and 1918. After reconsideration of report of several days ago conference committee of House and Senate decided to make simple out and out exemption without any restrictions what exist; that claim owner must file statement that he desires to hold claim with recorder of district in which claim is located, this notice to be filed by December 31 of year for which exemption is desired.

Oil claims not included because of the desire of congress to hasten oil development every where.

Please give this law widest publication among miners and prospectors.

CHAS. A. SULZER,
Delegate from Alaska.

Roy Sott was arraigned before U. S. Commissioner C. E. Weber Tuesday on a vagrancy charge. He was fined \$100.00 and in default of payment of fine was committed to jail for fifty days.

The family of Sam Knutsen left last week for Sitka where they will reside in the future. Mr. Knutsen will leave on a small boat for Sitka in a few days to join his family.

The Alaska Packers' Association's big sailing vessel, Star of Greenland, Capt. Peterson, in command, sailed Friday with a cargo of canned salmon and a portion of the cannery crew. At Loring the vessel took on an additional cargo of canned salmon and part of the Loring crew, and then set sail for San Francisco.

At the meeting of the Arctic Brotherhood last evening it was decided to change the hour of meeting from 8 to 7:30 P.M. However, the next meeting, Wednesday, October 10, is called for 7 o'clock, it being desired to get through with this meeting as early in the evening as possible.

A petition for Governor Strong's reappointment was circulated in Wrangell this week. Ninety names of representative citizens were secured before the petition was mailed to the President.

BRITISH COLUMBIA GOES DRY

British Columbia went dry Sunday midnight. The prohibition bill as enacted provides that after the first day of October there shall be no liquor sold for consumption within the province of British Columbia except through government vendors, who are to be paid by salary, and who can only sell to certain limited classes of persons under rigid restriction. The government vendors, under pain of dismissal and conviction, are forbidden to sell liquor for consumption as a beverage. They can only sell alcohol for mechanical and scientific purposes, alcoholic liquors in limited quantities to druggists, dentists, physicians, veterinarians, hospitals, superintendents for medical purposes, and to ministers of the gospel for sacramental purposes.

Five gallons is the limit which a druggist may purchase at any time; two quarts the limit for a physician; one pint the limit for a dentist, and one gallon the limit for a veterinary surgeon. Provision is made that a person may procure liquor for medicinal purposes, but it must be on a physician's prescription, and only one purchase can be made on one prescription. Outside of these classes and conditions the sale of liquor for consumption in the province is absolutely forbidden.

The act gives the police right of entry and search into premises where it is suspected liquor is kept for sale, or to seize liquor in transit from the possession of railway, steamboat or express companies where it is suspected the liquor is being imported for illicit sale. In such case the burden of proving his innocence is cast upon the owner of the liquor. Penalties are provided for all manner of breaches of the act and wide powers of search given to the police. Provision is made whereby the unsold stocks of liquor in existence when the act comes into force may be taken over by the government to form the initial stock for the use of the government vendors, whose names will shortly be gazetted.

Mr. and Mrs. Frank Churchill were evidently bent on getting sure enough married. In Seattle they were married over again in St. James Cathedral according to the ritual of the Catholic church. They have visited Portland and Chemawa and expect to return to Wrangell next week.

The Alaska Packers' Association's ship Star of Lapland is reported chartered to G. W. McNear for a voyage to Manila with a general cargo.

Judge Frank Booth and family were in town from Kake this week. The Judge brought his boat to William Fletcher to have a new cabin built for it.

Capt William Strong returned yesterday from Juneau where he has been for the past six weeks taking excursion parties up the Taku river on his boat, the Cassiar.

John Kake, David Kake, George Tzaw and Seph Williams were here this week for a supply of shingles. They report the erection of several new houses at Kake.

**NICK NUSSBAUMER
TO GO TO FRANCE**

Nicholas Nussbaumer returned on the Jefferson Monday from Fort William H. Seward at Haines where he went for a physical examination for enlistment in the 20th Engineers. It is a matter of delight to Mr. Nussbaumer and his friends that he passed the examination satisfactorily. Within the next few days he will receive orders to report at Portland, Oregon, or Ft. Leavenworth, Kansas.

The 20th Engineers was organized by the United States Forest Service under the direction of the War Department for immediate service in France. This regiment is planned to assist in forest work in France, and will also conduct logging and milling operations. Portable mills will be used as they can be quickly taken from place to place as need develops or as supply of logs requires. The regiment will be composed of foresters, experienced sawmill men, logging engineers, experienced woodsmen and loggers. This body will form a unit of the Engineers' corps of which the railroad workers are a part.

Mr. Nussbaumer is an experienced mill man, and will be able to render valuable service to his country in this regiment. Upon his return from Ft. Seward he tendered his resignation as yard foreman for the Willson & Sylvester Mill company.

W. G. Weigle recently resigned as supervisor of the Tongass National Forest in order to accept a captaincy in the 20th Engineers Regiment. Mr. Nussbaumer is reasonably certain of having Mr. Weigle as his captain.

**The Feast of the
Reformation**

Four hundred years ago the Reformation began, and so the churches of the world will celebrate its fourth centennial during the month of October.

AT
St. Philip's Church
the themes during the month will be as follows:

Sunday, October 7
"The Cause of the Reformation and the Reformers Before Luther."

Sunday, October 14
"The Work of Martin Luther"

Sunday, October 21
"The Swiss and Scotch Reformation."

Sunday, October 28
"The English Reformation."

The reformation was the real birthday of liberty, and in these days when men by the millions are giving their lives for the preservation of liberty, it is well that we review the history of the Reformation.

Do not forget the Communion service Sunday morning at 10:30 October 7.

Let I. C. Borge do your hauling. Auto truck always ready.

**HELL'S MOUTH
DISCOVERED
IN ALASKA**

Washington, Oct. 1.—The national Geographic Society here will get detailed scientific data on the Valley of Ten Thousand Smokes, the greatest volcanic region in the world, about Mt Katmai in Alaska.

This valley, according to preliminary reports from Robert F. Griggs, director of the society's exploration expedition, is the first wonder of the world. It makes Vesuvius, renowned for centuries, appear as nothing but a toy by comparison.

There is a great volcanic region about Mt. Katmai, a hundred miles in extent, literally filled by millions of active craters.

Dr. Griggs and his party, with complete scientific data and photographs of the region, is now on his way to Washington. The expedition is expected to reach Washington October 5. Dr. Griggs telegraphed his discoveries immediately upon reaching civilization at Kodiak, Alaska.

Indians Told of Craters.
Hidden away in the center of Alaska, Mt. Katmai and this enormous volcanic region were unknown to the civilized world until the great eruption in 1912 that nearly devastated the coast area. Alaska Indians had told the story of the Valley of Ten Thousand Smokes, and the Mouth of Hell, but their descriptions were inadequate, it seems, in the face of scientific discoveries.

Explorations were made by the National Geographic Society in succeeding years, but the enormity of this volcanic region has just become known. The Mt. Katmai explosion in 1912 was the most terrific in the history of the world. The quantity of material thrown from the Katmai crater was vastly greater than that which resulted in the projection of the Island of Krakatoa out of the bed of the Pacific ocean. The greatest effort of Vesuvius could not be compared with it. Practically the entire Alaskan peninsula and the islands of the Aleutian groups were covered inches deep in ashes, as were the decks of vessels hundreds of miles off the coast. The coast guard cutter Bear had to rescue whole communities threatened by the ash shower.

Announcement of Dr. Griggs' discoveries was made by Gilbert H. Grosvenor, director of the National Geographic Society, who received a telegram from Dr. Griggs announcing the safe arrival of his party from the interior and outlining some of its discoveries.

The survey by the exploration party proves that Katmai is the greatest crater on the face of the globe, being more than nine miles in circumference and 3,600 feet deep. The party also discovered a mud river seventeen miles long, and mapped 1,600 miles of territory hitherto uncharted. Two thousand photographs of the great volcano and the contiguous territory were secured, and a complete collection of plants, insects, birds, and geological data is being brought back to the United States by the expedition. Gases from the vents are also being brought back for chemical analysis.

Mr. Grosvenor announces that the expedition, judging from Dr. Griggs' preliminary report, is one of the most successful ever undertaken by the National Geographic Society and that the data collected by it will be among the foremost contributions to the science of the earth's surface since the dawn of the twentieth century.

This expedition set sail for Mt. Katmai region from Seattle on May 28.

Dr. Griggs announces that the expedition sustained no casualties and that the whole party has returned to civilization in perfect health.

DON'T BUY SO MANY BOOTS

NEXT time your boots wear out, buy a pair of "Hipress" Boots and you'll find it will be a long spell before you need another pair.

"Hipress" outwears any boot ever made. There's a mighty good reason, for "Hipress" isn't "built up" like other boots. It's welded into one solid piece without a seam—so there's no place for it to leak—and it's actually made of the same extra tough rubber that goes into Goodrich tires. Also it's the boot for solid comfort.

Local and Personal

A new bell was received this week for the Native school.

James Wheeler came over from Petersburg the first of the week.

Let I. C. Bjorge do your hauling. Auto truck always ready.

G. H. Griffith left for the States on the Princess Alice Friday night.

L. L. Wyatt left for Seattle on the City of Seattle Saturday afternoon.

C. E. Burch went to Ketchikan on the City of Seattle Saturday.

A. L. Brown arrived from Craig Monday on the Mackerel which he chartered for the trip.

V. Henningsen, O. D. Halsman, and Ben Brockman were passengers to Seattle on the Princess Alice Friday night.

C. W. Bart, specialist in all branches of photography. See display adv. on this page.

Fred Johnson who has been employed at the A. P. A. during the past season, left for the States on the City of Seattle Saturday afternoon.

Ellery Carlson was a passenger on the City of Seattle Saturday afternoon. He was en route to Bremerton.

R. O. Shangle and Earl Shangle of Glenora were in town the first of the week for supplies. This is their last trip until navigation opens next spring.

C. D. Calhoun, deputy U. S. Marshal at Craig, returned to his home on the Uncle Dan Friday morning.

C. S. Hubble, mining engineer and government surveyor, sailed for Seattle on the Princess Alice Tuesday night.

Charles Moore left on the Princess Alice Friday evening for a visit to Seattle.

Ralph Hall returned Saturday from Juneau where he took his wife recently for an operation.

Mrs. Thomas Hanson took passage to Seattle on the City of Seattle Saturday afternoon.

G. S. Chapin, superintendent of the cannery at Karheen, left for the States on the Princess Alice Friday night.

HONOR ROLL ST. PHILIP'S CHURCH

Rev. H. P. Corser, rector of St. Philip's Church, has had an honor roll printed and framed and hung up in the church. The honor roll reads as follows:

HONOR ROLL
ST. PHILIP'S CHURCH
WRANGELL,
ALASKA.

The following communicants and members of this church are in the service of their country fighting for their country and for liberty:

LAURENCE TAYLOR
Enlisted in the Navy.

ELLERY CLIFFORD
CARLSON
Enlisted in the
Submarine Destroyer Service.

CARL A. CARLSON
In the Reserve
Training for Mechanical
Engineer.

ELLERY CARLSON GIVEN FAREWELL RECEPTION

People of Wrangell Proud to
Honor Young Patriot Who
Leaves to Fight for
His Country

An event in which much interest centered and which was a complete social success was the farewell party given by the Moose lodge Friday night in honor of Ellery Clifford Carlson, an enlisted man who was to depart the next day for Bremerton to report for duty on submarine chasers.

Progressive whist formed the principal amusement of the evening. Mrs. Charles H. Borch received the ladies' first prize; Miss Gussie Leonard, the ladies' consolation prize. The gentlemen's first prize was awarded to W. H. Warren. The consolation prize was handed over to Raymond Lee with the comment that it was another thing he had won.

While the prizes were being awarded the Princess Alice arrived in port. Carl Carlson was to leave on this vessel for Seattle, and the company accompanied him to the boat for the farewell.

Upon returning to the hall the guests were invited to the banquet room where a delightful lunch was served. Ellery Carlson was given the seat of honor at the head of the table. Seated on his left were his mother and father; on his right Miss Lillian Barron who was his company for the evening.

The publisher of the Sentinel had the honor of presiding as toastmaster. Rev. Mr. Corser responded to the toast "Why Are We Fighting?" Assistant District Attorney W. A. Holzheimer was present and was called upon for a speech. Mr. Holzheimer's response was so full of patriotism that his German name seemed like a terrible misfit.

Leo McCormack, a British subject, who has three brothers fighting in France, was called upon and responded with remarks that were pleasing, sincere and patriotic.

The Moose lodge presented Ellery with a small parcel of useful articles that he could take with him on the submarine chaser. The parcel contained a high class safety razor in an exquisite case, with six dozen blades, a nail clip, a fountain pen and a box of stationery. The presentation speech was made by the toastmaster.

Following the lunch dancing was indulged in until the wee sma' hours.

The affair was hurriedly gotten up after Ellery received his orders, but it served most beautifully to impress upon this young patriot that the hearts of the people of Wrangell are with him.

Men's and women's garments cleaned, pressed and repaired at the New York Tailors. All work neatly and promptly done. Your patronage solicited.

Alderman James Haskirk of Regina, Saskatchewan, who is a brother of Adjutant H. C. Haskirk of Wrangell, has been appointed a member of the Canadian Exemption Board for the city of Regina.

Mrs. Ira Greenwood and two children took passage to Seattle on the City of Seattle Saturday afternoon.

ANCHORAGE J. T. WESTERMAN
Resident Vice President
CORDOVA W. R. HILLERY

Cashier W. L. LANDSBOROUGH Skagway
Auditor B. A. ROSS Anchorage
Ass't Cashier M. McVEAN Cordova

Although an integral part of the one system, each branch has had assigned to it the full amount of Capital required by the Territorial Banking Board for the establishment of a Bank in such a location. Each branch is therefore equipped to serve its customers as fully as any independent bank, but with the added strength and resources of the entire institution to draw upon. Furthermore each is responsible to the Territorial Banking Board, is examined and supervised independently and renders its statement direct to the Board. The Bank of Alaska is therefore, because of its double supervision and safeguards, peculiarly "An Institution of Strength and Character."
